Stephen Head

Dear Mr. Woolie,

Happy Thanksgiving! I am about to go home for the holiday break and I am so ready for it. It has been quite a semester. Classes are going well. I am a member of SFA's School of Honors and live in the Honors' dorm, so be assured grades are a priority for me and I am pleased to say I am doing well. I am quite relieved though that some of my professors have opted not to have a final. It gives me time to focus on Zoology, which has proven to be quite difficult. But I am making it through and learning a lot. I've joined several organizations, though so far none of them have been labor intensive. I'm a part of Collegiate FFA and am working to earn their highest degree, American by next summer. I am also an Agriculture Ambassador and a member of the [Honors Student Association](#), and the Poultry Science Club. I am hoping to get an on-campus job next semester and join the [Student Activities Association](#). I've found a lot of down time this semester and I am not one who likes to be bored. :)

Super Stud is doing well. He was moved to the Sunbreeze Landfill site because of an agreement Mr. Head has with them. Right now Stud is not costing me anything to stay out there and in return the Landfill company uses my bull for breeding. In the spring, I will probably have him switched to the Head's place to get him ready for the [Gulf Coast Show](#). I am hoping since I am too old and he is too young, that my brother, Noel, will show him for me. He is presently a member of the CCISD/NASA Longhorn Team. I was able to go see Stud a few weeks ago with my best friend and he seems to enjoy where he is. I definitely miss being able to see the longhorns and work with them regularly since I am away at college. I will send pictures I took during that visit when I return home tomorrow.

I hope you have a great holiday season with your family! Again, thank you so much for this opportunity.
