Dear Mr. King,

Sorry I haven't sent a letter in a while! With the start of school, the end of summer, college applications and my new internship course, life has been sort of hectic lately. How was your summer? How have you been? How's the ranch?

Now that Mooyah is the only guy out at the project, Beast and Avon have been hanging around him a lot more. They are all best buddies and I can't tell you how much he reminds me of Khoda!

He wrinkles his face when he's mad, bucks like a rodeo bull when he is alone in his stall and has a personality like no other calf! The kicking problem has been getting better and I now can walk around him completely and touch him all over without him so much as lift a leg. Slowly but surely we are making progress, and he is filling out well.

The first show I will try to attend with him is October 29th-31st; the Ark-La-Tex Show. We are most definitely inviting you to come watch! The new Longhorn Project students are awesome and I can't wait for a new year full of shows and fun! Hope you enjoy the pictures!

-Katie Gillis : Mooyah :)
