Mr. and Mrs. Newton,

It seems like a long time has gone by in the last 2 months. I've had a lot of school work to do, and grades to improve on.

Sweet Sierra Sioux, also took a break and was put out in the pasture. It took her a while to get use to less feeding, but finally got use to eating cubes and licking her minerals. She's a little contrary.

My nanny needed a break too. She has been sick and hasn't been able to help me take care of her. I'm thankful she has always been a gentle animal.

This weekend we penned Sioux back up and started feeding her grain again. I'm looking forward to April show. Hope all is well.

Love

Masen
