

April 27, 2011

Dear Mr. Mosser and Ms. Nora,

How are you doing? Sunny Chex Leigh and I are doing great. When I first got her from you I did T and T with her. T and T means touch and talk. She did well for me. I am very proud of her.

On the second day, I walked her with my brother Jacob. She did very good for me as well. I love her so much. I think she will be great mama cow and have very pretty babies when she grows up. I am so happy that I got her from you. We measured Sunny on April 25, 2011. Her tip to tip is 26 ¼" and her total horn is 26 ¾", and her base is 9". We also put pour-on wormer on her and now the flies are leaving her alone.

Thank you for letting me pick out a beautiful heifer from your herd. You have very pretty and sweet animals. God bless.

Sincerely,

*Rachel Jaske*

Rachel and Sunny
