

My name is Sierra Wood. I am a former officer in the TLBT where I served as the 2017-2018 reporter. The past few years I have been involved in showing these beautiful Texas Longhorns and have achieved many goals. I was the first person in my school district to show longhorns in FFA; I started out with just one heifer and by the end of my show career I had 13 head of cattle to show. I made a name for myself and placed in the Top Ten of the Senior division in the TLBT Hall of Fame. Since then my family and I have become breeders ourselves and own Twisted W Longhorns where we breed, raise and sell show-quality longhorns.

I now attend Tarleton State University in Stephenville, TX. My major field of study is Ag Education, with a minor in Animal Science (specifically livestock production). I am currently involved in CFFA and plan on joining our agriculture sorority. My future career plan is to devote myself to educating young minds as an Ag teacher, and help those kids achieve their goals and be successful.

Thank you to TLBGCA for supporting my educational and career goals by providing me with a college scholarship at the 2018 TLBGCA Spring Show.
